

Proclamation

Energy Efficiency Day

WHEREAS

A municipal focus on energy efficiency is an effective and sustainable approach to enriching a community economically, environmentally, and technologically; and,

WHEREAS

by embracing energy efficiency, households and businesses can reduce their utility bills, reducing the effects of inflation; and,

WHEREAS

improved energy efficiency can lead to better indoor air quality, reduced exposure to harmful pollutants, and improved thermal comfort, promoting overall public health; and,

WHEREAS

by learning more about energy efficiency and adopting smarter energy practices in our daily lives, we can all play a part in advancing our sustainability efforts.

NOW THEREFORE

on behalf of Council, I, Cathy Heron, Mayor of the City of St. Albert, do hereby proclaim October 1, 2025 to be Energy Efficiency Day in the City of St. Albert. I encourage all residents to join us in supporting our clean energy goals by looking into how you can save energy in your home.

Dated this 1st day of October 2025

Cathy Heron
Mayor, City of St. Albert
The Botanical Arts City
