

Bring your ENVIRONMENTAL IDEA to life!

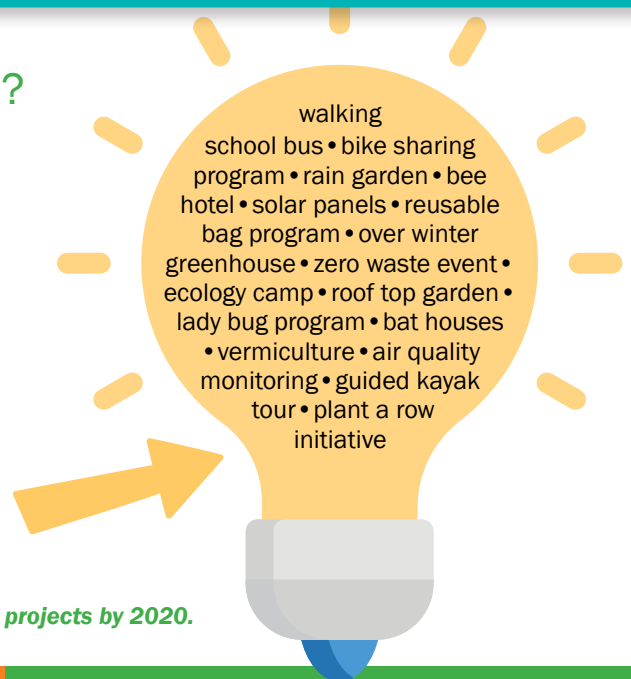

ENVIRONMENTAL INITIATIVES GRANT PROGRAM (EIGP) PROJECT IDEAS

The EIGP is a fun and easy way to encourage sustainability projects that align with St. Albert's Environmental Master Plan.

What makes a successful project application?

- A **focus** on one or more of the following: energy efficiency, air quality, active transportation (i.e. biking), waste and diversion, urban agriculture, environmental education and promotion of sustainable lifestyles;
- A **community connection**: will educate and motivate many people to take environmental action;
- A **partnership**: between residents, organizations and/or community groups;
- A **focus on the future**: will sustain the environment in St. Albert for years to come; and
- A new idea (see the list on the right or come up with your own) or **innovative** approach to an existing one.

Each year, the EIGP awards grants of up to \$5000. Our target is to fund 28 projects by 2020.

NEW Application Mentor Program

Want to meet with a Grant Program review team member to brainstorm and develop your project ideas before applying?

Contact staff at 780-459-1735 or environment@st.albert.ca to book an appointment.

APPLICATION DEADLINE

October 10, 2019 at 5:00 p.m.

Visit stalbert.ca and search **Environment Grant** to download the 2019 grant application.
