

Oobleck Experiment

How to Make Oobleck with Cornstarch
A fun and messy experiment!

Ingredients:

Water
Cornstarch
Measuring cups
Large mixing bowl
Small cups
Spoon
Newspaper or plastic table cloths for covering tables
Food coloring
Zipper bags

Procedure:

1. Pour the cornstarch into a large mixing bowl and slowly add the water. You will need 1 part water to 15 parts cornstarch, or 1 cup of water to 15 cups of cornstarch. (This may need to be tweaked to get the perfect mixture.)
2. After mixing the cornstarch and water for a few minutes add your choice of food coloring. Continue mixing until food coloring is mixed in well.
3. Enjoy exploring your Oobleck.
4. When finished, store your Oobleck in an airtight zipper bag.
5. Clean up and wash your hands!
