

CITY OF ST. ALBERT

BYLAW 05/2022

A Bylaw to provide for Neighbourhood Plans

WHEREAS Section 638.2 of the *Municipal Government Act* provides that a municipality may adopt policies that do not form part of a statutory plan bylaw or a land use bylaw but may be considered in making land use planning decisions under Part 17 of the Act;

AND WHEREAS, pursuant to subsection 638.2(1) of the Act, policies dealing with land use or planning matters outside of statutory plans or the land use bylaw may be approved directly by Council by resolution or bylaw, or may be made by a person to whom Council has delegated the authority to make such policies;

AND WHEREAS Council wishes to ensure that its legislative decisions to enact or amend area structure plans and area redevelopment plans remain at a relatively broad and conceptual level, while also recognizing that effective land development or redevelopment typically requires close attention by developers and City planners to technical details which may need to be revised occasionally as neighbourhoods within the scope of a Statutory Plan are built out and interconnected with each other and with other lands outside the Statutory Plan;

AND WHEREAS Council has made a policy decision that the concept of the Neighbourhood Plan as a technical document approved by the Director of Planning and Development or delegate, supporting and supplementing and consistent with its associated Statutory Plan, should be an integral part of St. Albert's land planning and development process in order to allow technical issues at the neighbourhood level to be addressed effectively without resorting to a more costly and time consuming process of amending a Statutory Plan;
