TAKE NOTE

DECOMMISSION OF 13 MISSION AVENUE

Starting the **first week of September**, work will begin on 13 Mission Avenue (former NABI building) to decommission and demolish the building while preparing the land for future use.

Learn more at stalbert.ca and search **Decommission 13 Mission Avenue**.

NOTICE OF BLUE GREEN ALGAE AT LACOMBE LAKE

Blue green algae is very toxic, so please keep children, dogs and other pets away. The City is monitoring the situation. Access is suspended until further notice and the dog beach gate is closed.

This type of bacteria starts growing during hot summer months, and flourishes in extreme heat temperatures on the surface of waters in Alberta.

Tips for dealing with Blue Green Algae:

- Treat all blue green algae with caution
- Do not drink water from lakes, rivers, and reservoirs with visible blooms
- Do not swim or wade in water containing the algae
- Keep pets out of the water and provide alternative sources of drinking water when outside on walks

If you spot a bloom of blue green algae, please contact environment@stalbert.ca.
