# RECYCLING

## RECYCLING TIPS

**Items must be empty, clean and dry. No food or liquid residue.**

- Keep items loose inside the Blue Recycling Bag, no additional bags.
- Tie Blue Recycling Bags tightly to prevent litter on a windy day.
- Blue Recycling Bags must not exceed 15 kg (33 lbs.) per bag.
- Only put acceptable recyclables inside your bag.
- Numbered triangles on items do not mean the item is recyclable, but that it is made with plastic content.
