Membership revenue for Q2 2010 is \$614,285 which is 1.6% above budget and 3.0% above the second quarter of 2009.

The average number of family membership units per month for Q2 2010 is 445, which equates to 4.8 individual members per family membership unit.

There were 2,089 corporate members in Q2 2010, which is a 9.1% increase over Q2 2009. The corporate members in Q2 2010 make up 29.7% of the total members.

### Membership Revenue

Membership revenues for Q2 2010 is lower than Q1 as the first quarter of the year is typically the highest revenue quarter of the year. Over the past three years, Q2 has seen continued steady growth in the membership revenues.

The Q2 2010 budget is based on a blended rate of \$36.51. The actual blended rate for Q2 2010 is \$38.15, which is an increase of \$1.72 over the blended rate for Q2 2009 (\$36.43).

This increase in the blended rate is due primarily to the increased numbers in the family, adult, student and senior membership categories which are currently the higher membership price categories.

### Total Members

\* In 2008, there was no budget for members, only membership units.

In Q2 2010, there was an average of 7,042 members per month, which is 2.7% above budget and 1.1% above Q2 2009. Although, the number of memberships is down slightly from 2008, membership revenues continue to grow.

Trending over the past 2 years for Q2 has seen slight growth with the exception of 2008 where a campaign selling 4 months of membership for the price of 3 was taking place. This campaign began in Q1 of 2008, with multiple 3 for 4 packages being purchased and used throughout 2008.

### Membership Units

Membership units for Q2 2010 are 5,370, which is 2.7% below budget and 1.6% below Q2 2009. Membership totals for Q2 are lower than Q1 as the first quarter of the year are normally the highest membership totals of the year

Members are the number of individual people who have paid for access to the facility and membership units are the paid number of memberships (i.e.: 1 family membership unit could possibly equal 4 members).

### Percentage of Members who are St. Albert Residents

In Q2 2010, the average percentage of members who are St. Albert residents is 80.9%. Efforts are currently underway by Servus Place Business & Marketing to expand Servus Place's market reach.

### Members by Type

In Q2 2010, annual memberships accounted for 73.9% of the total memberships, a 6.5% increase over Q2 2009, and a 51.1% increase over Q2 2008. Annual memberships have seen significant growth over the last two years. Annual membership totals are the key indicators of sustained monthly revenues that contribute, as a large driver, to the facility financial model.

Members by type indicate a slightly higher ratio of annual vs. monthly members for Q2 compared to Q1. This trend began in Q3 of 2008 following the implementation of the membership strategy to increase the annual membership base total as recommended by the 2008 Sierra Systems report.

### Members by Demographic

In Q2 2010, there has been a 2.8% increase in the number of family members, a 3.0% decrease in the number of child members compared to Q2 2009. All other membership categories have remained relatively consistent.

The decrease in membership units can be correlated to the transfer of individual child and youth members from individual categories to the increases in the family unit totals. A family unit is counted as one regardless of the number of individuals included in the family unit.

## Fitness Programs

In Q2 2010 fitness program revenue is \$138,792 which is 28.6% above budget and 31.0% over Q2 2009. This variance can be directly attributed to a strong base of core programs, an increased number of programs and increased program participation, combined with a strong variety of new program options built upon a strong reputation for quality programs

The revenues for Q2 compared to Q1 typically trend lower however Servus Place has seen increased revenue in Q2 over the past three years.

Drop-in program participants are consistent for the quarter and are quite comparable to Q2 of 2009. The decrease in participation numbers from Q1 to Q2 is based on the seasonal usage trends

## Recreation Programs

Recreation program revenue for Q2 2010 is \$31,792, which is 23.6% below budget. This variance is primarily due to the budget inherited in 2009 of cost centre 3150 amalgamated with 3166 and the associated revenue targets. These overstated budget revenues are being addressed within the 2011 budget submission process.

Typical seasonal trends are for lower revenues in Q2 as compared to Q1.

\* In 2008 and 2009, refurbishment charges were not broken out separately but included in the rental revenue for each floorplate.

Overall rental revenue has exceeded budget by 20.9% for Q2. Servus Place anticipates that use patterns for last half of 2010 will be comparable to 2009 and revenues ending the year slightly higher than budget projections.

Meeting room revenue is higher than budget projections for Q2 due to the Canadian Traffic Education School booking meeting rooms in conjunction with rental of the parking lot.

Leaseholder revenue is under budget due to the 2010 budget being set before new tenants were acquired for the two vacant lease spaces in the facility.

In 2008 and 2009, refurbishment charges were included in the rental revenue for each floorplate. In 2010, the refurbishment charges are broken out separately from the rental revenue.

\* In 2008 and 2009, refurbishment charges were not broken out separately but included in the rental revenue for each floorplate.

Major events in April, including the Scotiabank Pro Am and Gymnastics Provincial Championships contributed to higher activity. With the exception of early April when ice was removed to accommodate the Chamber Trade show, a second sheet of ice was operated through the second quarter. The second sheet of ice resulted in increased use by a hockey development client (Your Hockey) and Edmonton Men's Hockey league and thusly higher revenue.

Revenue received through increased use and the higher rates charged for the arena with ice (as opposed to lower rates that are charged for dry floor) will contribute to a higher projection of overall revenue to the end of 2010. Servus Place anticipates the last half of 2010 to be comparable to 2009.

In 2008 and 2009, refurbishment charges were included in the rental revenue for each floorplate. In 2010, the refurbishment charges are broken out separately from the rental revenue.

\* In 2008 and 2009, refurbishment charges were not broken out separately but included in the rental revenue for each floorplate.

The variance in fieldhouse revenue is due to increased overall activity by inline hockey, ball hockey, lacrosse and developmental dry land training (Your Hockey). Many events were held on the fieldhouse space in Q2 including the Chamber of Commerce Trade Show, Blues Lacrosse Tournament, Desa Karate, Inline Hockey Tournament, Lacrosse Baggataway and Métis Dance Festival.

Servus Place anticipate for the last half of year use will be comparable to 2009, however the increased revenue experienced in the first six months will result in higher than budgeted revenue at year end.

\* In 2008 and 2009, refurbishment charges were not broken out separately but included in the rental revenue for each floorplate.

The variance in gymnasium rentals for Q2 is due to increased use for pre season sessions by sport partners: Slam basketball and Fastball. Events such as the Provincial Gymnastics, Desa Karate Tournament and developmental dry land training (Your Hockey) also contributed to higher revenues.

Servus Place anticipate for remainder of the year use will be comparable to use in 2009, however, the increased revenue experienced in Q2 will result in higher than budgeted revenue at year end.

Gymnasium rental revenue is limited due to the availability of only one court for booking and limited demand from groups. Gymnasium rental revenue is only brought in on rental hours. Programmed, maintenance and spontaneous use does not bring revenue directly into facility rentals. Revenue for these hours is realized under program revenue or viewed as a benefit of membership or day admission.

As membership and day admissions grow, there is increased use of the gymnasiums for drop-in and spontaneous activities. At times use of all three courts is required for spontaneous use.

<b>Total Personnel Costs</b>	<b>\$781,425</b>	<b>\$907,476</b>	<b>\$987,829</b>	<b>\$975,400</b>	<b>\$ 12,429</b>	<b>\$2,002,811</b>	<b>\$1,953,000</b>	<b>\$ 49,811</b>

Restructuring in 2008 and 2009 which included moving functional areas such as hosts/facility monitors from Guest Services to Operations, separating Recreation and Fitness as opposed to having them grouped together and separating Business & Marketing from Booking & Events.

The variance in Business & Marketing personnel costs is due to the vacant Advertising & Sponsorship Coordinator position which will be filled in August. It is expected that July will show similar savings and the remainder of the year will be as budgeted.

The fitness personnel cost variance for Q2 and YTD are due to increased registered program offerings.

The Q2 variance in contracted and general services is mainly due to timing of initiatives in advertising and promotion and development and training. Servus Place anticipates that this account will come in on budget for 2010.

Utility costs for Q2 2010 are on budget.

The YTD variance in utility costs is due primarily to the decrease in the cost of natural gas as well as due to a corporate initiative where all expenses for landline phones are being paid through Information Technology Services. All that will remain under the telephone and cable area is cell phones/blackberry's and cable.

The 2010 utilities indicated above are based on estimates due to the delay between receiving the utility bills and the monthly reporting. When the bills are received all previously used estimates will be updated with the actuals.

## Materials, Goods & Supplies

Materials, Goods & Supplies	Q2 2008 Actual	Q2 2009 Actual	Q2 2010 Actual	Q2 2010 Budget	Q2 2010 Variance	YTD 2010 Actual	YTD 2010 Budget	YTD 2010 Variance

Materials, goods and supplies are under budget by \$19,930 due to decreased expenses in bank charges, operating supplies in Administration and program supplies in both Recreation and Fitness. Servus Place anticipates this area will come in on budget for 2010.

Although the YTD variance is below budget, increased events and traffic within the building have required additional costs for janitorial supplies, carpet cleaning and floor waxing. Additional unanticipated expenses include repairs to paint, domestic hot water tanks, Wye-Delta starter and ceiling fans.

### Aquatics Internal Contracts

The variance in aquatics internal contracts is due to timing of initiatives as well as additional labour required during the "Spruce Up".

### Public Works Internal Contracts

Transfer to public works internal contracts is over budget due to timing of initiatives.
