SPOTLIGHT ON

OUTDOOR ICE SAFETY

The City would like to remind residents about the dangers of thin ice and uneven ice in St. Albert.

Other than Lacombe Park Lake, all natural or man-made water bodies, including storm water management facilities (more commonly known as storm water ponds) and the Sturgeon River, are not safe for skating or recreational use. Residents are asked to stay off these ice surfaces at all times and to follow all safety warnings posted at these facilities.

Lacombe Park Lake is the only natural water body maintained and monitored by the City of St. Albert for outdoor skating. Please obey all signage on site while using the outdoor surface and check stalbert.ca for current updates on skating conditions.

The City also maintains a large number of outdoor rinks for residents to use throughout the winter. As these rinks are subject to changing weather conditions, the surface may not be as smooth as indoor surfaces. Skaters should carefully inspect the ice and watch for uneven patches, cracks or holes. A list of outdoor skating surfaces, including those with heated change buildings, is available on the City website.

For more information, visit the City of St. Albert website at stalbert.ca and search **Outdoor Ice Surface Safety**.
