SMOKE TESTING NOTICE

The City of St. Albert will be performing smoke testing on **September 6** and **September 10 to 12** in the Grandin area. This is part of a proactive approach to test sewage infrastructure and roof drain connections to keep our city running smoothly for years to come.

This test involves dispersing smoke throughout sewer lines to locate holes where groundwater and/or stormwater may enter. During the testing, crews will blow air and smoke into the sanitary sewer system through manholes in the street. The smoke used is non-toxic and odorless and is harmless to humans, pets, food and material goods.

NOTICE

For more information please visit stalbert.ca and search **Smoke Testing**.

Be sure to obey all road and safety signage.

For more information or to report issues, please call 587-712-2214.
