## Policy

Systematic and rigorous monitoring of the Chief Administrative Officer's job performance will be measured against the expected results to be achieved by the Chief Administrative Officer. This will include the corporate accomplishment of Council policies on Outcomes and corporate operation within the boundaries established within Council policies on Chief Administrative Officer Limitations.

It is also vital that the Chief Administrative Officer's salary be examined and adjusted as part of the monitoring and assessment process in order to provide fair and reasonable compensation for the quality of the job being performed by the Chief Administrative Officer.

## Standards

1. The purpose of monitoring is to determine the degree to which Council policies are being met.
2. Council will acquire monitoring data by Council review, in which a designated member or members of Council assess compliance with the appropriate policy criteria.
3. In every case, the standard for assessing Chief Administrative Officer compliance with Council policies shall be reasonable interpretation of the Council policies by the Chief Administrative Officer.
4. Performance of the Chief Administrative Officer will be monitored at a frequency as outlined in the *Municipal Government Act* and by a method determined by Council.
